

Bulgarian Geoinformation Company is an official Trimble MGIS reseller and so we are glad to offer more than "just" high quality devices and software but solutions that meet your requirements and bring your workflow to a whole new level of productivity and quality. We extend our product line with many other offerings that you can find in the "[Products](#)" and "[Services](#)" sections, to meet the requirements of your workflow.

In addition to the wide variety of solutions that we offer, you can also rely on the professional trainings, technical service and consultation that we provide.
